

# A Trip To The Story Bank

# Welcome!

I am going to be visiting The Story Bank.

When I arrive, I will walk to the entrance gates located on the side of the building.

## Entry

I will walk through the entrance gates and make my way inside the Retail Cottage.

A friendly staff member will greet me and prepare the tickets.

Once I have received the ticket a staff member will explain the building and its history.

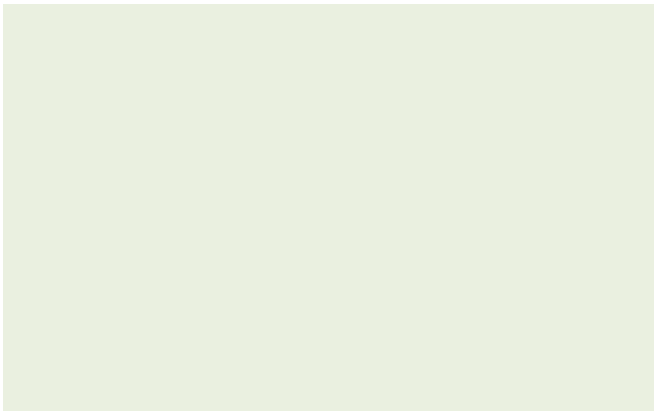

## Going Inside the Bank

The staff member will direct me to the big glass doors on the verandah. They will let me into The Story Bank.

I will expect there will also be some other people exploring inside at the same time as I am.

I will keep my body safe and not run in the museum and be considerate of others by using my inside voice.

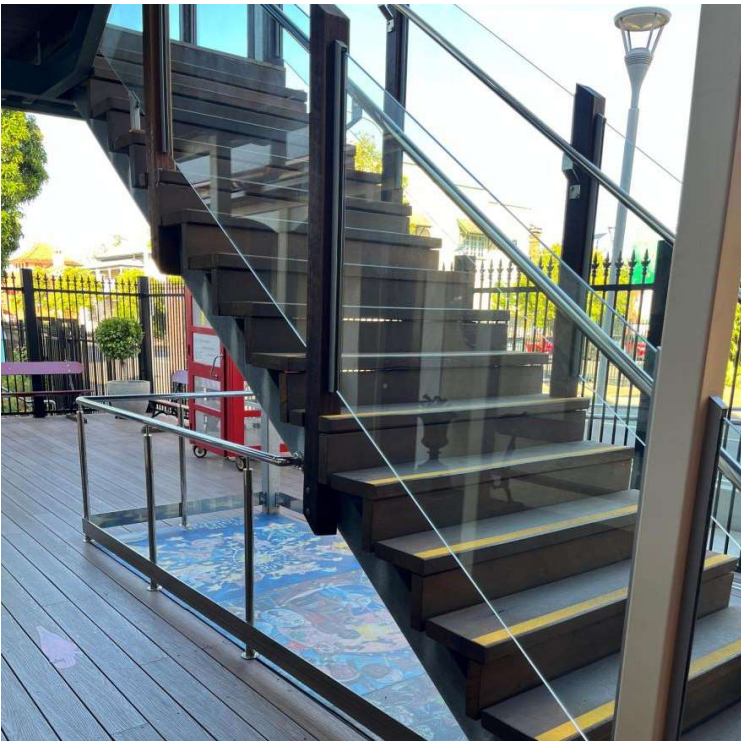

# What to Expect: Level 1

Downstairs, there are 7 spaces for me to explore.

When I walk in there are so many things to see! I will see a shadow puppet theater, Cherry Tree Lane, and the Cabinet of Curiosities with its many drawers and cupboards to open.

I can touch and play with all these things. There is even a wall where I can draw and colour!

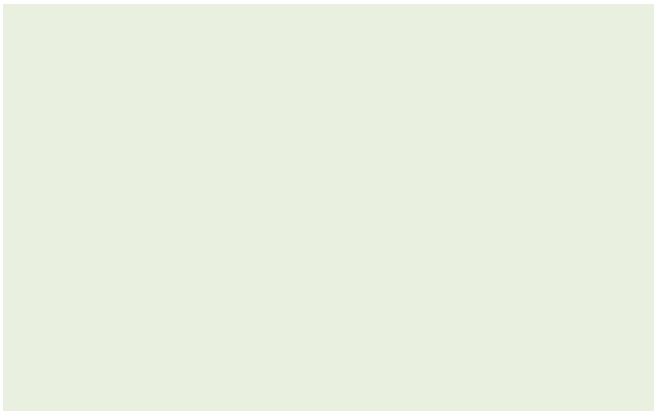

## Going Upstairs

Once I have explored downstairs, I will now take the lift or the stairs to take me to the top level. I can find the lift and the stairs outside the big glass doors on the verandah.

It is okay if I take a break before exploring upstairs by sitting down on the chair or benches in front of the Retail Cottage or going to the bathroom beside the lift.

## Upstairs

Once I have made my way to the top, I can look out through the magical telescope.

When I am ready, I will now enter using the glass sliding doors.

There are 6 rooms that I am going to explore.

## What to Expect- Level 2

Level 2 has many rooms to explore such as The Proud Marys room, The Theatrette, the Gallery, and the Workshop. I will even get to see the room where the author of Mary Poppins was born!

Once I am finished, I will make my way back downstairs.

## Mary's Garden

Once I have made my way back downstairs, I can choose to explore Mary's Garden. I can take the stairs down to the garden, or I can use the ramp outside the main gate and come back in using the smaller garden gate.

I can take a break in the garden on one of the benches and enjoy the flowers.

Thank you for  
visiting. We  
hope to see  
you again  
soon!
